Subject: FW: Jard Company Inc

Laura,

This is not an immediate issue but we inputted the SSID version of the site name sans the period at the end as noted in the email below. If we need to input the period into our systems for the name please let me know. Otherwise you may want to adjust the TDD name at the time of another TDD amendment, if needed.

Regards,
Mark

Mark,

Please note that the new TDD for Jard Company Inc (01-13-09-0001) included a period after the abbreviation *Inc*. This period is not listed in the SSID list, nor is it listed on previous Jard tdds.

Thank you,

Tara
